What is Child Sexual Exploitation?

Child sexual exploitation is a form of sexual abuse in which a child or young person is exploited, coerced and/or manipulated into engaging in some form of sexual activity in return for something they need or desire and/or for the gain of a third person.

The 'something' received by the child can include both tangible items such as food, somewhere to stay, drugs, alcohol, cigarettes or money and more intangible 'rewards' such as perceived affection, protection or a sense of belonging. Fear of what might happen if they do not comply can also be a significant influencing factor.

Common to all these scenarios is an imbalance of power in favour of the abuser and some degree of coercion, intimidation, exploitation, violence and/or enticement of the child or young person (DSCF 2009).

The abuse can be perpetrated by groups or individuals, and by adults or peers.
